03/Mar/22 6:32 PM	WAV-8	Scope change	Estimate changed from 6 to 7	1		18

Comments:

- We had a small break at the beginning of reading week, hence the low completion of story points before Feb 23
- After Feb 23, the work dramatically increased, staying above 35 story points for the rest of the sprint
- Velocity picked up in the middle. This is due to the break we had at the beginning of reading week. Throughout the week, we kept good pacing, although we could've spread out our work more instead of cramming towards the end of the week.
- Velocity was better in sprint 1 than sprint 2, due to newfound motivation to work on a fresh project, and also a much busier week in sprint 2 for most members.
